We help change lives. We can change yours. For over 20 years,

NorthGreen Marketing's products and support services have generated over \$500 million in revenue to many of the most respected charitable organizations in the USA and international markets.

NorthGreen designs and manufactures the best performing, most cost effective, durable, and widely used charitable donation collection canisters available. Our selection of indoor and drive-thru collectors is the widest in the industry. Coupled with our programs, this is a proven way to increase your organizations donations.

A NorthGreen canister program can enhance the efficiencies and revenue returns for your regional, national or international charitable program. Like a large river starting from single drops of rain, cash collections succeed by wisely collecting and accounting for every penny. Year after year, a flourishing canister program can help extend the impact of other revenue opportunities.

Who we are. Over 20 years ago, NorthGreen created the first standardized, charitable donation collector for outdoor, drive-thru service windows. The idea changed forever the revenue opportunity for charities affiliated with businesses providing drive-thru services for customers. The dramatic increase in charitable funds provided by NorthGreen drive-thru collectors made them a chief part of several fast food restaurant systems support of their charities of choice. NorthGreen's products and support services have generated over \$500 million in revenue to many of the most respected charitable organizations.

NorthGreen brought service counters a more permanent and professional approach to in-store charitable collections. A variety of models, sizes, materials, and custom products, assures restaurant and convenience businesses their charitable efforts at the counter maximize the collection opportunity.

As charitable collection programs have grown internationally, NorthGreen continues to expand its products and services to all forms of business and non-profit organizations. In 2007 NorthGreen began an important affiliation with Best Vendors Charitable Services to bring multi-store businesses, complete 360-service of their canisters, including; operational planning, installation, 3rd party collections, accounting / banking, maintenance and special services. Together, NorthGreen and Best Vendors bring system wide service to over 55,000 charitable collection canisters in the USA. We are far and away the largest and best at what we do.

Custom collectors are the best by design. Most business and institutional collection canister needs are satisfied by our general product offering.

However, unique applications and goals are often satisfied with totally different product configurations, or a variation on an existing product. Special needs on a counter surface, such as limited display space, extended capacity, increased security and customer interaction may require a solution unique for your operation.

It may be as simple as a change in material or as complicated as personalized shape with a digital displays. NorthGreen and its production partners have a wide range of capabilities with international capabilities. Take your problem and make it our challenge.

Get started with the best charitable collection program.

The Process

- Money
- Point-of-sale collector
- Collect money from each location
- Transport and count money
- Consolidate and report
- Payment sent to charity

Starting a Charitable Canister Program. There is a belief that if you put a charitable canister out in public the money will come with relative ease. Sounds good, but the reality is a successful canister program is hard, strategic work, involving; planning, budget, legal considerations, good charitable partners, dependent product, marketing/promotion, public relations, organization and security. It's not that you cannot have a successful program lacking in any one of the areas, but success is a relative word. You may only want a few dollars a week from one canister at one location, the family retail business.

If the goal is to collect tens of thousands or millions of dollars each year, that's what NorthGreen specializes in with its business partners.

Legal Considerations. Know the laws governing charitable collections within each state you intend to expand. Please review all state laws with your attorney general office prior to implementing your donation canister program.
